SATG Sweep Action Tine Grapple & SASB Solid Bottom Construction Grapple

Versatile Tools Equipped to Handle All Types of Materials

One tool; many applications, best describes the Sweep Action Tine and Solid bottom construction grapples from SitePro. The patent pending design keeps the front rake of the sweep clamp open during use until the rear section of the clamp is either closed or contacts the material being handled. The cylinder then overcomes the spring pressure causing the front rake to rotate towards the bucket in a sweeping motion moving material in and retaining it in the bucket.

SATG-series with its open tine bottom and sweep-in grapples offers the performance customers demand for site demolition debris, as well as rocks, brush, wood and metal. The sweeping action allows the operator to pick up small material without having to leave the cab, eliminating hand clean-up, while leaving the dirt behind. This versatility allows the operator to own one tool to handle all types of materials. Making return on investment outstanding.

Engineered, Designed and Manufactured in the USA

SATG-Series Specifications

	SATG-72	SATG-78	SATG-84
Overall Width (in/mm)	72 / 1829	78 / 1981	84 / 2134
Bucket Depth (in/mm)	31 / 787	31 / 787	31 / 787
Upper Grapple Width (in/mm)	21 / 533	21 / 533	21 / 533
Length of Front Sweep Clamp (in/mm)	21.5 / 546	21.5 / 546	21.5 / 546
Degrees of Sweep	44	44	44
Grapple Opening (in/mm)	37.13 / 943	37.13 / 943	37.13 / 943
Tine Material	1/2 Steel	1/2 Steel	1/2 Steel
Tine Spacing (in/mm)	5 / 127	5 / 127	5 / 127
Number of Tines	12	14	14
Hose Routing	Inside the Frame	Inside the Frame	Inside the Frame
Cylinder Pressure Rating (psi/bar)	3000 / 207	3000 / 207	3000 / 207
Couplers	1/2 / 13 Body – Connect Under Pressure		
Mount Type	Universal Skid Steer Mount		
Weight (lbs./kg)	847 / 384	893 / 405	896 / 406
Product No.	812540	812560	812580

SASB-Series Specifications

	SASB-72	SASB-78	SASB-84
Overall Width (in/mm)	72 / 1829	78 / 1981	84 / 2134
Bucket Depth (in/mm)	30 / 762	30 / 762	30 / 762
Upper Grapple Width (in/mm)	21 / 533	21 / 533	21 / 533
Length of Front Sweep Clamp (in/mm)	21.5 / 546	21.5 / 546	21.5 / 546
Degrees of Sweep	44	44	44
Grapple Opening (in/mm)	37.13 / 943	37.13 / 943	37.13 / 943
Bucket Material	AR	AR	AR
Bottom Wear Strips	Yes (3)	Yes (3)	Yes (3)
Optional Bolt-on Cutting Edge (3/4" x 8")	811790	811830	811870
Hose Routing	Inside the Frame	Inside the Frame	Inside the Frame
Cylinder Pressure Rating (psi/bar)	3000 / 207	3000 / 207	3000 / 207
Couplers	1/2 / 13 Body – Connect Under Pressure		
Mount Type	Universal Skid Steer Mount		
Weight (lbs./kg)	815 / 370	839 / 381	853 / 387
Product No.	812530	812550	812570

SASB-series features our scrap yard tested solid bottom low profile bucket. The bucket bottom is made from abrasion resistant steel with three 1/2" x 4" reinforcing wear strips for longer bucket life. The bucket cutting edge is drilled to accept a bolt-on beveled (reversible) cutting edge increasing the durability and life of the bucket edge. Optional bolt-on side plates increase the buckets capacity to handle bulky loose materials easier.

Caution — A heavy load can cause your power unit to tip over. When moving heavy loads, keep the load as close to the ground as possible, go slowly around turns, and be sure the front or rear of power unit is properly counterbalanced with weights.

Caution — Operators must read & understand operator's manual, particularly the safety warnings and instructions. **The operator is responsible for safety of themselves and others when operating equipment.**

SitePro® has a corporate policy of continuous product improvement and development; therefore, specifications are subject to change without any advance notice.
